

Build & Deploy a Node app

In 30 minutes!

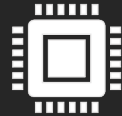

About me

- Staff Software Engineer
- 10+ years of experience
- Various startups
- Various software languages

Course Goals

Use Docker to setup a local database

Build RESTful API in Node

Accepts some sort of data –
from IoT device

Returns list of data

Test application

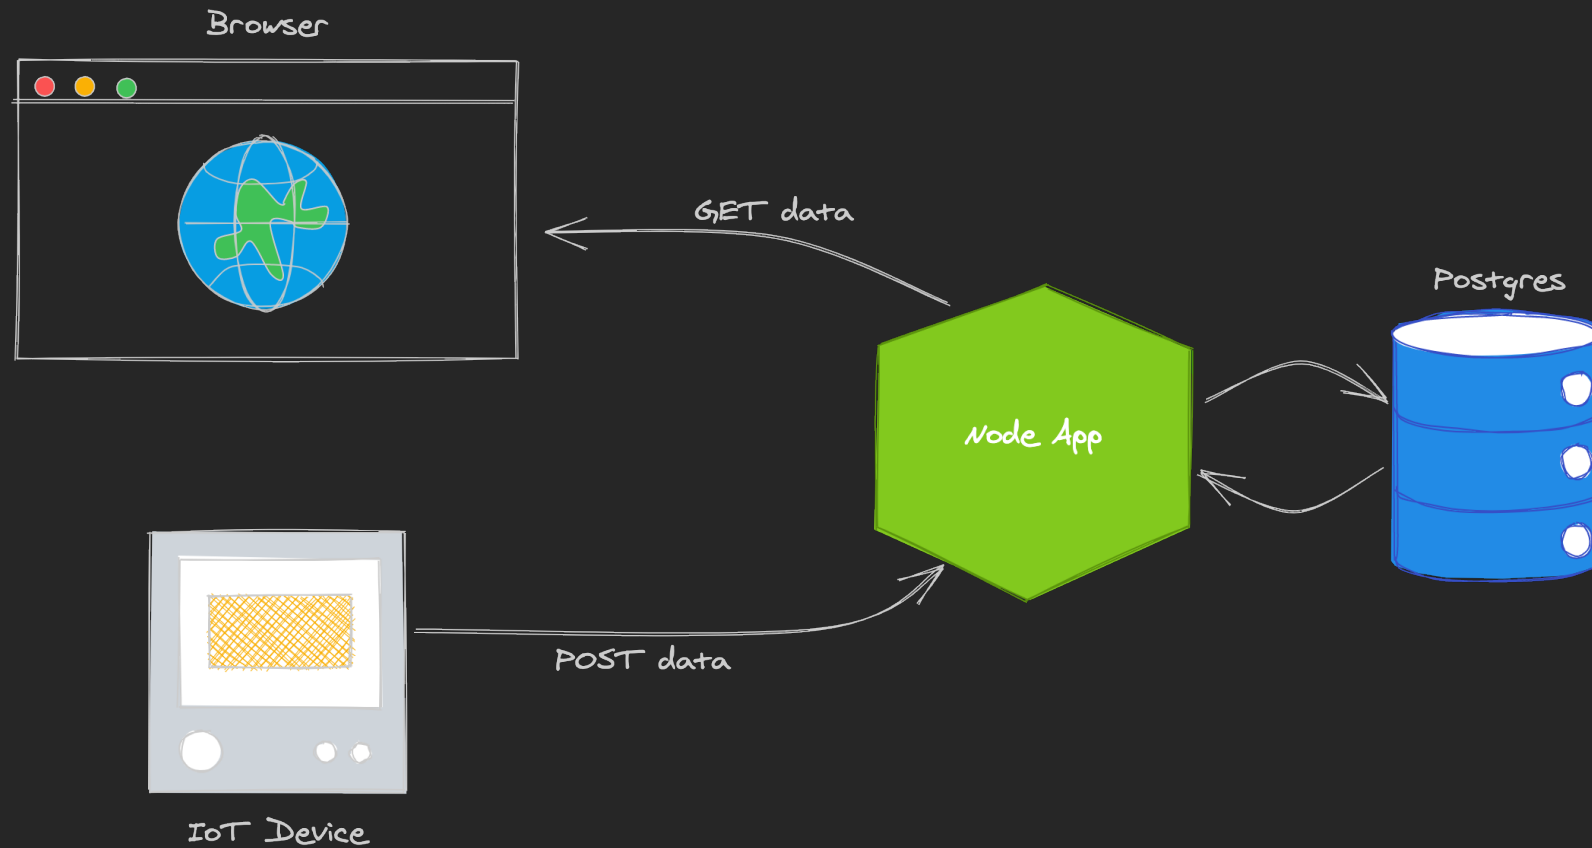

Push code to GitHub

Deploy to Digital Ocean Cloud

Application Diagram

Made with Excalidraw

Tools & Setup

- Digital Ocean
- Docker
- NodeJS & NPM
- Git & GitHub
- Terminal & Project Scaffolding
- VSCode
- cURL
